INTRODUCTION

We are pleased to present the 2001 Report of the Australia and New Zealand Organ Donation Registry (ANZOD Registry). This report contains 2000 data as well as cumulative Australian data from the inception of the Registry in 1989 and New Zealand data since 1993.

The Registry is a collaborative effort of the Australasian Transplant Coordinators Association (ATCA Inc) and the Australia and New Zealand Dialysis and Transplant Registry (ANZDATA).

We are once again honoured to have the support of the Governor General of the Commonwealth of Australia, Sir William Deane, who has kindly written the foreword.

The special section of this Report has been provided by A/Prof Graeme Russ on behalf of the Australia and New Zealand Dialysis and Transplant Registry (ANZDATA).

The Registry is grateful for the ongoing financial support provided through the Australian Health Minister's Advisory Council and the Australian Kidney Foundation.

The staff employed by the ANZDATA Registry, are exceptionally dedicated and take great pride in their work. Ms Lee Excell continues her meticulous work as the Database Manager, Ms Lis Steinmetz is responsible for the layout and presentation of the report, and Mr Brian Livingston provides statistical programming.

The report can be accessed via our Internet Web Site <http://www.anzdata.org.au> and copies are available at a small cost.

Karen Herbertt
